

I am writing to request that you stop Sinclair Broadcasting's move to force their stations to air an anti-Kerry documentary days before the election. It is not a proper use of the public airwaves.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Sinclair is attempting to serve a political interest. Such actions are a threat to our democracy.

This entire matter also speaks to the larger issue of media ownership, of control of outlets by a few powerful corporations. The rules should be protected for ensuring that domination of the public airwaves and other media outlets does not occur.
